

## Phillipa Huynh

Phillipa holds an International Diploma of PKP and began practicing kinesiology in 2013. Becoming a member of the AKA in 2014, she is currently a level 5 practitioner. Phillipa has worked in the corporate world, specifically in Information Technology, for 16 years throughout Australia, the UK and Chile. This experience together with her 'side hustle' of small natural therapy website development has translated into beneficial skills for the MC with the website redesign and association strategy being major projects of interest and focus.

Phillipa is busy at home with two young children and is currently studying a Graduate Diploma in Psychology at Monash University to complement her kinesiology practice.
